## COUNCIL WILL BE JUDGE AND JURY

Demand Written Charges and Reply  
from Burgess and Suspended  
Officer. Fix Next Tuesday for  
Hearing of the Case.

With the town council acting as the court and jury, Burgess John Raymond as the prosecutor, and Chief of Police Emmons as the defendant, a hearing will be staged in City Hall next Tuesday evening which is, perhaps, the first of its kind in the annals of this historic town. A suggestion that one of the local amusement halls be used for the purpose and that admission be charged, proceeds to go to street oiling, will not be adopted. City Hall, be it known, is the name recently given the Engine House by a tourist.

The burgess addressed council at an adjourned meeting Wednesday night for a period of about forty five minutes during which he advanced some ideas for the improvement of the city. He then presented to Secretary Kitzmiller a typewritten document of some seven or eight hundred words outlining the circumstances of the recent suspension of Mr. Emmons. The charge was largely Emmons' conduct at the time of a college boys' advertising stunt when he refused to recognize the Burgess' verbal permit to allow the performance. He also accused Emmons of other acts reflecting on the dignity of the office now held by Mr. Raymond.

J. Donald Swope Esq., town council's attorney, stated that the proper procedure was for Mr. Emmons to file a written answer to Mr. Raymond's charge and that a date be fixed for the hearing, both accuser and defendant to have counsel if desired. He also stated that Mr. Emmons is entitled to his salary during the term of suspension and that the substitute chief is also entitled to pay by the council. Mr. Raymond was advised that, if he had any further charges to prefer, it would have to be done in writing to-day to which he replied, "All right, gentlemen, I'll have a whole book full." Next Tuesday was fixed for the hearing.

The council then directed itself to an examination of Mr. Raymond's reports of permits issued and fees received. It was noticed that no licenses for shows were reported and Messrs. Stock, Dougherty and Baughman were appointed to take up the matter with the Burgess.

Council passed an ordinance fixing the annual license for faking at \$5.00. Last year it was \$25.00.

The crossing at Carlisle street, between the Reformed parsonage and the property of J. L. Butt, was ordered removed.

Mr. Dougherty reported that the residents of the first block of York street wanted to put gas tar on that street but that they would not pay for tarvia treatment. Council decided to put the tarvia provided the residents of that block pay the balance due on their guarantee for the original construction of the street. Last year they promised \$250 for this work, only a little over one-third of the amount ever being paid. Mr. Swope was instructed to take necessary steps to make the collections.

Mr. Stock presented a request of Reuben Rupp to put gas tar on the third block of North Washington street, residents to pay for product and cost of applying. Permission was granted.

E. P. Miller asked that the streets, ordained in the northeast part of town to give entrance to the plant of the Gettysburg Furniture Company, be opened. Action was deferred to the next meeting.

Pavement notices were ordered sent to a number of residents on the North side of York street extended, and on Hanover street.

The ordinance committee reported that it found no way of providing fixed stalls for hackmen at the Reading station, as proposed by Burgess Raymond.

A request of Dr. Walter H. O'Neal for sewer connection with properties on South Stratton street was referred to the sewer committee.

The highway committee was given a request of Edward Tawney for a grade on Steinwehr avenue.

## FIRST MEMORIAL OF ANNIVERSARY

Beautiful Colonial Portico Dedicated  
at Theological Seminary. Governor  
Tener Sends Special Representative.  
Commencement.

The first memorial of the great Peace Jubilee at Gettysburg last year, and up to this time the only such memorial, was dedicated this afternoon with fitting ceremonies when a beautiful colonial portico at the old Seminary building was formally opened.

The seminary was founded in 1826; and the present dormitory, which stood a silent, but not unscarred witness of the memorable battle, was built in 1831. On the morning of July 1, 1863, Generals Reynolds and Buford observed from its cupola the approach of General Lee's army. In the afternoon the Seminary fell into the hands of the Confederates, who used the cupola as a signal station. By evening the building was filled with wounded Union soldiers.

On the Fiftieth Anniversary of the battle, in July, 1913, the Seminary entertained many distinguished guests, invited by the Commonwealth of Pennsylvania. The halls that once echoed with the cry of suffering were the scene of peaceful reunion between the children of the North and the South.

It was thought, fitting, therefore, that some abiding memorial should commemorate the great Peace Jubilee. This has been accomplished in the erection of the portico over the very portals, now re-opened, through which many noble men were borne to die, or to be healed of their wounds.

The principal address this afternoon was made by Dr. Henry E. Jacobs, of Philadelphia, an eye witness of the battle. Dr. J. A. Singmaster, chairman of the Seminary faculty, gave a brief historical sketch and Mr. Horace McFarland, of Harrisburg, representing Governor Tener, brought the greetings of the State. Elsie Singmaster Lewars read "The Man Who Shot Given" a story of the anniversary, and the dedicatory prayer was made by Dr. E. D. Weigle, of Camp Hill.

The singing of Luther's Battle Hymn and the benediction closed the exercises.

Wednesday evening the address to the alumni of the Seminary was made by Rev. W. H. Hetrick, of Westminster, and an informal reception was held at the Refectory afterward. Dr. A. R. Steck presided for the period of speechmaking which followed.

Only the usual routine business was transacted at the annual meeting of the board of trustees this morning.

## GET NO DAMAGES

Bridge Company not Responsible for  
Lives Lost by Collapse.

The Washington & Berkeley Bridge Company won a sweeping victory when the United States circuit court of appeals at Richmond, this week handed down a decision reversing the judgment of Judge Alston G. Dayton in the case against the Pennsylvania Steel Company. More than \$40,000 is involved in the decision being damages paid to the relatives of employees of the steel company as the result of the bridge disaster at Williamsport in 1909. James Myers, of Bendersville, was one of those killed in the accident.

Following the awarding of damages to relatives of those killed in the collapse of the pier against the steel company action was brought by the said company against the bridge company in the district court at Martinsburg. Judge Dayton in a decision handed down July 1, 1913, held the bridge company responsible. An appeal was taken.

## UNOFFICIAL VOTE OF THE PRIMARY

Brodbeck Gets Double the Combined Vote of his Opponents Local  
Option Men Win for Legislature.  
Vote on State Men.

The unofficial vote of Adams County, with a few districts not tabulated, changes the figures but not the ultimate result of Tuesday's election as forecasted by The Times on Wednesday. The districts not included will not affect the successful candidates.

The official count of the ballots started at noon to-day and will continue until completed which, it is expected, will be late Friday afternoon.

Andrew Brodbeck carried the county by almost 800 plurality and received more than double the amount of ballots cast for the other three candidates. In York County he received a plurality of between 2000 and 2500. Palmer carried Adams County by between 700 and 800 and McCormick by about 500. Penrose ran slightly ahead of Dimmick.

The totals for the districts now tabulated are as follows:

For Governor	
McCormick D	988
Ryan D	455
For State Senator	
Penrose R	285
Dimmick R	260
Palmer D	1026
Budd D	328
For Congress	
Brodbeck D	1018
Gitt D	259
Hawkins D	216
For State Legislature

## COUNTY PEOPLE TAKEN BY DEATH

Franklin Township Resident Died at  
his Home on Wednesday Evening.  
Former Adams County Woman  
Died in Oregon. The Funerals.

**MRS. MARGARET BIGHAM**  
Mrs. Margaret M. Bigham, a former resident of this county, died in Oak Grove, Oregon, on May 2, aged 84 years. She left Adams County for Oregon about twenty years ago.

She leaves six sons and three daughters, all living in the west. Her maiden name was Margaret Andrew and she was the last surviving member of the Andrew family. Daniel Woodring, of Iron Springs, is a son-in-law and she leaves two sisters-in-law, Mrs. Joseph Andrew, of Ortanna, and Mrs. Margaret Bigham, of Virginia Mills.

The funeral was held at Oak Grove.

## JONATHAN WISLER

Jonathan Wisler, a well known resident of Franklin township, died at his home on Wednesday evening aged 85 years, 6 months and 13 days.

He leaves a daughter and two sons, Mrs. Mervin Van Dyke, of Gettysburg; George Wisler, of Franklin township; and Samuel Wisler, of Gettysburg.

Funeral Saturday morning, with services at the house conducted by Rev. D. T. Koser. Interment in the cemetery at Flohr's church.

## ACCIDENT RECORD

Clyde Easley and Donald Redding  
Have Narrow Escapes.

Clyde Easley was caught in the chain of small buckets at the Dix stone crusher east of town on Wednesday evening and carried up toward the hopper. Amos Rubensine, a fellow workmen, quickly threw off the belt and doubtless saved Easley from serious injury as he was traveling straight for the hopper of the crusher. His clothing was badly torn but he received no injury.

Little Donald Redding, son of Mr. and Mrs. Edward Redding, residing a short distance east of town, had his leg caught in the spokes of a wagon on Wednesday but the driver stopped before he had received any other injuries than a painful sprain.

Emanuel Shindedecker, residing near town, is suffering from a badly bruised leg which he sustained while working about his farm.

A muddy spot in a corn field saved a five-year-old daughter, of Mr. and Mrs. Percy Hetrick, of near York Springs, from serious injury if not death on Tuesday. The child was riding on the roller with her father, when she fell forward off the machine which passed over her before the father could check his team. The little girl was picked up and carried to the house and Dr. E. W. Cashman summoned but he found her only slightly injured.

## NEW LIGHTS

Gas and Electric Companies Showing  
Various Methods of Lighting.

The Gettysburg Light Company is demonstrating a number of new lights on Centre Square and a large new arc at the corner of Chambersburg and Washington streets. The Gas Company arcs continue to shine at the north corner of Centre Square. The fact that the present light contract expires in August accounts for the activity, council desiring to try out various methods before entering into another five year agreement.

## RYAN DEFEATED BY M'CORMICK

Nominated For Governor by  
the Democrats.

WAS EASY FOR PENROSE

Frazer, Endlich and Trexler Named  
For Judgeships—Washington Party  
Vote Was Light—The State Tickets.

Philadelphia, May 21.—United States  
Senator Boies Penrose received the  
Republican nomination for the posi-  
tion he now holds in the state primary,  
overwhelming J. Benjamin Dimmick,  
former mayor of Scranton.

In Philadelphia the Penrose vote  
exceeded that given to his opponent  
by seven to one.

Dr. Martin G. Brumbaugh, superin-  
tendent of schools in Philadelphia, is  
the Republican nominee for gover-  
nor.

Vance C. McCormick, of Harrisburg,  
is a winner over City Solicitor Michael  
J. Ryan, of Philadelphia, for the De-  
mocratic nomination for governor by a  
majority of 20,000. Ryan received a  
majority of 10,000 in Philadelphia.  
Ryan carried Pittsburgh by 900.

Congressman A. Mitchell Palmer is  
the Democratic nominee for United  
States senator over Henry Budd, of  
Philadelphia. Budd, like Ryan, car-  
ried Philadelphia, his majority being  
less than 6000.

Gifford Pinchot, without opposition,  
was chosen the Washington party  
nominee for United States senator,  
while Dean Draper Lewis, of the Uni-  
versity of Pennsylvania law school,  
won the gubernatorial nomination of  
that party.

Frank H. McClain, of Lancaster, had  
a runaway over E. D. Powell for the  
Republican nomination for lieutenant  
governor, and William T. Cressy won  
the Democratic nomination for this  
office over John E. Jenkins, the can-  
didate on the Ryan-Budd ticket. Percy  
F. Smith had no opposition on the  
Washington party ticket.

For secretary of internal affairs  
Henry Houck, the incumbent, won the  
Republican nomination without op-  
position; William N. McNair won the  
Democratic nomination, and Fred E.  
Levins is the Washington party can-  
didate.

In the non-partisan balloting for  
nomination for judge of the superior  
court, Robert S. Frazer, of Pittsburgh,  
received the machine Republican vote,  
while the Democrats generally threw  
their strength behind Gustav A. End-  
lich, of Berks county. These two are  
winners. Judge George Kunkel, of  
Harrisburg, received a large compli-  
mentary vote.

Judge Frank M. Trexler, of Allen-  
town, is running far ahead in the  
vote for judge of the superior court. It  
is believed possible that he has received  
more than 50 per cent of the total  
votes cast, and in that event his will  
be the only name on the ballot at the  
November election.

A significant feature of the primary  
was the small vote cast by the Wash-  
ington party. The Washington party  
votes in Philadelphia numbered about  
16,000. Republican leaders estimate  
that the entire Washington party vote  
in the state will not exceed 60,000, al-  
though Nevil Dietrick, chairman of  
the Washington party state commit-  
tee, estimated 75,000 votes in the  
state.

County Commissioner Frank Gor-  
man estimated that the Keystone vote  
in Philadelphia was between 3000 and  
4000. It was asserted at the Republi-  
can headquarters that the Keystone  
party vote in other sections of the  
state would hardly reach 1000.

The following are the successful  
nominees:

Republican.  
United States senator—Boies Pen-  
rose, Philadelphia.  
Governor—Dr. Martin G. Brum-  
baugh, Philadelphia.  
Lieutenant governor—Frank B. Mc-  
Clain, Lancaster.

Secretary of internal affairs—Henry  
H. Houck, Lebanon.  
Congressman-at-large—Thomas S.  
Crago, Greene; Daniel F. Lafean,  
York; Mahlon M. Garland, Allegheny;  
John R. K. Scott, Philadelphia.

Democratic.  
United States senator—A. Mitchell  
Palmer, Monroe.  
Governor—Vance C. McCormick, of  
Harrisburg.

Lieutenant governor—William T.  
Cressy, Columbia.  
Secretary of internal affairs—Wil-  
liam T. Meichling, Butler.

Congressmen-at-large—Robert S.  
Bright, Philadelphia; Martin Jennings  
Caton, Allegheny; Luther B. Seibert,  
Potter; John Smith Shirley, Clarion.

Washington Party.  
United States senator—Gifford Pin-  
chot, Pike.  
Governor—William Draper Lewis,  
Philadelphia.  
Lieutenant governor—Percy F.  
Smith, Allegheny.

Secretary of internal affairs—Fred  
erick E. Lewis, Lehigh.

Congressmen-at-large—Lex N. Mit-  
chell, Jefferson; Arthur R. Ripley, Cum-  
berland; Anderson H. Walters, Cam-  
bria; Harry Watson, Mercer.

Prohibition Party.  
United States senator—Madison F.  
Larkin, Lackawanna.  
Governor—Matthew H. Stevenson,

## DEMOCRATIC NOMINEES.

Palmer (top), For U. S. Senator;  
McCormick (below), Governor.

Allegheny.  
Lieutenant governor—H. J. Whalen,  
Lawrence.

Secretary of internal affairs—C. W.  
R. Smith, Delaware.

Congressmen-at-large—George Hart,  
Lackawanna; James J. Patton, Phila-  
delphia; B. R. Pike, Erie; S. Harper  
Smith, Allegheny.

Ryan made his best showing in  
Philadelphia and in the anthracite coal  
regions, where he ran ahead of Mc-  
Cormick. Some of the counties Ryan  
carried, besides Philadelphia, are Lu-  
zerne, Northampton, Lackawanna,  
Bucks, Clinton, Erie, Schuylkill, Blair,  
Wayne, Westmoreland and Carbon.

Dimmick's best effort was put forth  
in his home county of Lackawanna,  
which he carried easily, and in some  
of the surrounding counties.

Brumm carried Schuylkill, his home  
county. Apparently the only counties  
in which Budd's vote exceeded that of  
Palmer were Carbon and Blair.

The primary was virtually a com-  
plete victory for the candidates back-  
ed by party machinery. In the internal  
fight among the Democrats, while Ryan  
was the candidate of that section  
known as the organization, the reor-  
ganizers had the benefit of the sup-  
port, moral and actual, of the national  
administration.

While much public interest was fo-  
cused on the senatorial contests, it  
was largely because of its being the  
first opportunity for an expression of  
popular preference for the office, and  
there was little doubt at any time of  
the outcome.

The only real lively battle was that  
between McCormick and Ryan for the  
Democratic gubernatorial nomination.  
Brumbaugh featured in Huntingdon,  
his home county, practically cleaning  
the county. Palmer and McCormick  
won, and Dimmick seems in the lead  
over Penrose. Indiana county went  
strongly for Penrose, Palmer and Mc-  
Cormick. Palmer and McCormick  
won handsomely in Jefferson county,  
which probably will show a majority  
for Dimmick over Penrose. The min-  
ing district went for Penrose, but the  
rural districts wiped this out.

Estacion Amaros, Mex., May 21.—  
General Francisco Villa, leading 4000  
Constitutionalist troops, won the first  
important engagement of the Saltillo  
campaign on May 17, when, at Pare-  
don, he defeated 4500 Federals retreat-  
ing from Monclova.

The Federal troops were decisively  
beaten. Not only did General Villa ad-  
minister a defeat, but he thus pre-  
vented the arrival of reinforcements at  
Saltillo, which would have added ma-  
terially to the defensive force of the  
objective point of the campaign.

The Constitutionlists lost sixteen  
killed and twenty wounded. The Fed-  
eral casualties were twenty-nine killed  
and more than eighty wounded.  
The Constitutionlists captured 900  
prisoners.

File Dynamiters' Plea For Pardon.  
Washington, May 21.—Applications  
for the pardon of the twenty-four con-  
victed dynamiters are now in the  
hands of Pardon Attorney Finch, of  
the department of justice. The presi-  
dent will not interfere with the sen-  
tences, it was said at the White House,  
unless Attorney General McReynolds  
recommends clemency.

## MEDIATORS MEET IN PEACE PARLEY

Method of Procedure Discus-  
sed at First Session.

MINISTER SUAREZ ABSENT

Mexican and American Delegates Cal-  
led On Mediators as First Form  
Step to Compose Crisis.

Niagara Falls, May 21.—The South  
American mediators and the delegates  
of the United States and the Huera  
government had their first formal con-  
ference looking to a settlement of the  
Mexican problem.

Rules of procedure and preliminary  
organization of the mediation proceed-  
ings were discussed. Minister Suarez,  
of Chile, had not arrived, and Amba-  
sador Da Gama, of Brazil, and Minis-  
ter Naon, of Argentina, sat at the head  
of the long table presiding over the  
conference. Each of the three parties  
had secretaries present.

The American delegates, Justice La-  
mar and former Solicitor General Leh-  
mann, came to the conference wear-  
ing high hats, but the Mexican dele-  
gates were in informal dress. Two Ca-  
nadian policemen stood guard at the  
door.

There was a brief handshake and  
greeting, the mediators indicated to  
the American delegates that they were  
to sit on one side of the table and the  
Mexicans, Senors Rabasa, Rodriguez  
and Elguero, on the other.

After an address of welcome by Am-  
bassador Da Gama and responses by  
representatives of the Mexican and  
American delegations the first session  
of the mediation conference recessed.  
No sooner had the Mexican commis-  
sioners departed than Justice Lamar  
and Solicitor General Lehmann, the  
American delegates, made their for-  
mal call. These visits opened the way  
for the first actual session of the me-  
diation conference.

None of the mediators would haz-  
ard an opinion as to the probable dura-  
tion of the conference. They were opti-  
mistic, but made it plain that they were  
not in position to know what to ex-  
pect.

The assembling of the mediators  
and Huerta and American delegates  
marks the first purely American me-  
diation that ever has been undertaken.  
It is the effort to compose the crisis  
between the American republics, with  
three other American republics acting  
as umpires.

The mediators were prepared to lay  
before the delegates from the two  
governments the rules and regulations  
which will govern. Ambassador Da  
Gama, as the ranking representative  
among the mediators, will be the lead-  
er in whatever action is taken, but it  
has not been announced whether there  
will be a chairman formally chosen to  
preside over the sessions.

It was denied by Ambassador Da  
Gama and Minister Naon that infor-  
mal discussion should precede the pre-  
sentation of formal proposals upon  
each point which shall be raised in the  
conference.

As each formal step is taken up the  
secretaries will draw up written  
memoranda and these records will be  
signed. The field will thus be kept  
clear of misunderstandings as to what  
has been said in answer to any im-  
portant suggestions.

While the question of the elimina-  
tion of Huerta was believed to be par-  
amount in the minds of the mediators,  
it was realized by those closely in  
touch with the situation that the final  
solution of this problem would depend  
to a considerable extent upon the na-  
ture of the powers conferred upon the  
Mexican delegates.

In the event that these powers were  
plenary it was thought that the ques-  
tion could then be approached with  
directness as one of the first propos-  
als to be submitted. If on the other  
hand the Mexican representative  
were under instructions to refer the  
suggestions of the mediators to the  
Mexican capital for final decision, the  
subject probably will be approached  
with less hopefulness of an immediate  
settlement.

## PARKS SHOT; THEN BURNED

Brazilian Embassy Reports on Fate of  
Missing Orderly.

Washington, May 21.—Private Sam-  
uel Parks was shot and his body was  
burned by Mexican Federals, accord-  
ing to a report of the Brazilian minis-  
ter at Mexico City on file in the state  
department.

This report was on information from  
an alleged eye witness.

General Funston advised Secretary  
Garrison that the Mexican Federals  
in returning Parks' two horses to the  
Vera Cruz outposts sent along a note  
bearing on this return, but did not  
mention Parks' fate.

Secretary Garrison admitted that  
Captain Perey Mills, at Key West  
had taken the affidavit of A. W. Bland,  
a refugee, who said in substance that  
he was informed by a reliable man  
who had seen the body, that Parks  
was shot and his body burned.

## Urrutia Coming to U. S.

Washington, May 21.—General Fun-  
ston has informed the war department  
that Dr. Urrutia, formerly General  
Huerta's minister of the interior, who  
fled the Mexican capital to save his  
life, planned to sail from Vera Cruz  
on the liner Atlantis for Galveston.

## ASKS CONVICTION OF DR. GRIFFITH

Judge Says Unwritten Law  
Cannot be Applied.

Greensburg, Pa., May 21.—In a  
forty-two-minute charge to the jury in  
the case of Dr. Martin Griffith, charged  
with the murder of W. L. Robinson,  
a music teacher, Judge D. W.  
Doty made it very plain to the jury  
that there was no such thing as an  
unwritten law to be applied to the case,  
and that there was no evidence to  
show that the defendant should be ac-  
quitted on the ground of self-defense.  
The case came to a close after a  
plea by Colonel E. E. Robins, of the  
defense, C. Ward Elcher addressed the  
jury for the prosecution.

Colonel Robins painted a vivid pic-  
ture of the events in the Griffith home  
on the night of Jan. 26, when the phy-  
sician discovered the music teacher  
struggling in the parlor with his wife.  
He told the jury that since Mrs. Griffith  
would have been justified in kill-  
ing Robinson to protect her chastity,  
her husband would have been justified  
in doing so.

Instead, maddened at the sight of  
the man's disarranged clothing and  
with his medical knowledge he re-  
sorted to the knife as adequate pun-  
ishment. The attorney contended that  
the evidence showed that the music  
teacher died from Bright's disease and  
not from the injuries inflicted by the  
doctor or as the result of the opera-  
tion. He asked for the defendant's ac-  
quittal.

Life Sentence For Kidnapper.  
Opelousas, La., May 21.—Life im-  
prisonment was the sentence imposed  
here on W. C. Walters, convicted of  
kidnaping five-year-old Robert Dun-  
bar. The jury had found Walters  
"guilty without capital punishment."

## REBELS ON LAST LAP OF ADVANCE

Program Provides For Quick  
Dash Toward Mexico City.

TWO-THIRDS OF WAY THERE

Mazatlan the Goal After Villa Gains  
Saltillo—Possibility That Huerta May  
Move the Government to Puebla,  
Scene of Many Battles, Said to Be  
More Easily Defended Than Capital.

The fall of Tampico has carried the  
arms of the Constitutionalists to vic-  
tory two-thirds of the way from the  
Texas frontier to the Mexican capital.

They expect to control very soon all  
territory north of the twenty-second  
degree of latitude, a little below the lat-  
itude of Tampico. They profess to be  
able to enter the City of Mexico in less  
than a month. The only garrisons of  
importance still held by the Mexican  
federalists north of the twenty-second  
parallel are Saltillo, San Luis Potosi  
and Mazatlan.

The Constitutionalists have three  
main army divisions. Two of these,  
under command of Generals Villa and  
Gonzales, will join for the final assault  
on San Luis Potosi. The third divi-  
sion, under command of General Obregon,  
which has been operating on the  
west coast, has orders to capture Mazatlan.

When these three generals have  
wrested Saltillo, Mazatlan and San  
Luis Potosi from the hands of the fed-  
eralists their forces will converge upon  
Mexico City. Villa and Gonzales are  
to approach the capital from the north,  
with San Luis Potosi as their base.  
General Obregon will swing his forces  
eastward from Guadalajara and march  
on the capital. Thus it is the purpose  
to have men of all three divisions of  
the Constitutional army participate  
in the assault on Mexico City.

Saltillo is now the only garrison of  
importance held by the federalists north  
of Tampico and San Luis Potosi. Gen-  
eral Joaquin Maas commands the fed-  
eral garrison there. Villa, advancing  
from Torreon, is now south of Paredon  
and very near to Saltillo. His army is  
reported to comprise more than 15,000  
men, while Maas has not more than  
5,000 men and probably nearer 4,000.

**Mazatlan After Saltillo.**

The Constitutionalists expect Villa  
to gain Saltillo any moment and think  
his forces will be well on their way  
to San Luis Potosi soon thereafter.  
Gonzales by that time expects to have  
5,000 or more men operating against  
San Luis Potosi. Generals Torres and  
Aguilar, commanding a flying column  
which has cut rail communication be-  
tween Tampico and San Luis Potosi,  
will also participate in the attack on  
the latter city. The Constitutionalists  
have some smaller commands in the  
states of Queretaro and Hidalgo op-  
erating under orders to cut the railroads  
and prevent the sending of re-enforce-  
ments to San Luis Potosi.

Huerta has been having difficulty  
in obtaining troops to use against the  
rebels at San Luis Potosi. Recruits in  
Mexico City threatened to mutiny  
rather than enter the campaign against  
the Constitutionalists north of the  
Mexican capital, but information has  
been received here that some of these  
recruits would be willing to serve  
against an American army advancing  
from Vera Cruz.

At Mazatlan, the port on the west  
coast which has been besieged for  
weeks, flights take place daily, and  
aeroplanes are being used by the Con-  
stitutionalists for dropping bombs in  
the federal trenches.

In expectation of the fall of Mazatlan,  
Constitutionalist columns pene-  
trated southward through Sinaloa into  
the territory of Tepic. They cap-  
tured Acaponeta and San Blas and are  
working toward Guadalajara. When  
Mazatlan has been taken the main  
body of Obregon's army will follow  
these columns and march on Guadala-  
jara.

**Puebla the Strategic Point.**

The army of the south, under com-  
mand of General Zapata, is menacing  
Mexico City from the southwest. The  
Zapatistas are not formally connected  
with the Constitutionalists, but the  
Constitutionalists regard their leader  
as an ally.

At the present time Huerta's only  
open route to the sea is over the rail-  
road leading south from Mexico City  
to Puerto Mexico, the eastern terminus  
of the Tehuantepec railway, and possi-  
bly Salina Cruz, the western terminus.  
His forces also control the country  
east of Mexico City along the lines of  
the Mexican National railway and the  
Interoceanic railway toward Vera  
Cruz.

The most strategic point in that  
whole district is the ancient city of  
Puebla, says the New York Times.  
Washington correspondent. There is  
a suspicion here, based on intimations  
from Mexico City and statements of  
refugees, who say that Puebla is more  
easily defended than the capital, that  
General Huerta, when assured of the  
loss of Saltillo and the advance of the  
Constitutionalists upon San Luis Po-  
tosi, will transfer his government and  
capital to Puebla.

Puebla has been the scene of many  
battles, dating back to the days of the  
Spanish conquest. It has 95,000 popu-  
lation and is surrounded by a circle  
of hills so situated as to be easily  
used for defense and trenches.

**Immortal Life.**  
The natural life is the immortal life.  
You know a little more truth; then a  
little more obedience, then more  
truth; forever so. But all depends on  
being in earnest.—Phillips Brooks.

## "THUNDER BIRD" OF INDIAN LEGEND IS NOT A MYTH.

Rare Specimen of Willow Ptarmigan  
Found Frozen on Solitary Heights.

Color has been given to a weird In-  
dian legend of the "thunder bird" by  
the recent discovery on the topmost  
edge of the timber line of the moun-  
tains of Glacier park, Montana, of a  
rare specimen of the willow ptarmigan  
bird, frozen to death at a solitary  
height. The "thunder bird" legend  
has long been regarded as gospel by  
the Blackfoot Indians of Glacier park  
reservation, but white men have smiled  
at it. Since the discovery of the strange  
bird frozen to death the Indians have  
been lamenting the fact as an ill omen.

Here is the story of the "thunder  
bird" translated literally, as old Chief  
Three Bears of the Blackfoot Indians  
faithfully repeats it to this day:

"Long ago there was an old man who  
was called Three Bears. When he was  
a young man the Blackfeet were camp-  
ing on Elk river. It was summer. The  
long time rain had commenced. In the  
morning when he went for the horses  
to bring them into the camp he came  
to this river. He saw there was a bird  
(that) was sitting near the edge of the  
water. He walked toward it. When  
he was looking at it, then he knew  
(that) the bird did not belong to this  
country. Its feathers were all of differ-  
ent colors; its bill was green colored;  
its legs were colored the same. It had  
three claws. It would not open its  
eyes (literally, look). He then caught  
it. Then he took it home.

"When he entered all the chiefs were  
invited. They all entered. The bird  
sat at the upper end of the lodge. He  
told these chiefs, 'Now, here is a bird  
that you may look at (to know) what  
it is.' It was not known (nobody could  
tell what kind of a bird it was). After  
a long while Four Bears pushed it.  
When it opened its eyes (literally,  
looked) then it flashed lightning. The  
flap of the tepee lay open. The bird  
flew toward the door. When it opened  
its eyes (literally, looked) again, then it  
flashed lightning again. When it flew,  
then the thunder roared. That way the  
thunder was seen."

The recently discovered "thunder  
bird" was brought to Glacier park sta-  
tion by Chief Three Bears, who made  
the trip over the mountains on snow-  
shoes in order to intercept Louis W.  
Hill, president of the Great Northern  
railway, and to have him take it to an  
expert taxidermist for preservation.

Mr. Hill went to Kallispell, Mont., in  
order to deliver the sacred bird to H.  
P. Stanford, a Rocky mountain taxid-  
erapist and ornithologist. The moment  
he saw the bird he exclaimed:

"This is a very rare specimen. It is  
the willow ptarmigan, which has been  
reported only twice in the United  
States, once in Maine and once in  
Massachusetts."

The bird will be exhibited in the for-  
est lobby of the big log hotel at the  
eastern gateway to the newest national  
park as a memorial of the Indian peace  
councils that were formerly held.

## \$4,573,000 FOR TROOPS.

Cost of Mexican Action Thus Far in  
Extraordinary Expenses.

The "war of service," as President  
Wilson described the presence of Amer-  
ican troops in Mexico, is not without  
cost. In the end the figures may run  
up far into millions, and thus far the  
outgo for the army is not small. With  
the navy there has been little expendi-  
ture over and above the regular main-  
tenance appropriations. In the case of  
the army there has been transportation,  
equipment, subsistence in the field  
under conditions causing excessive ex-  
pense and many other unusual items.

Major General J. B. Aleshaire, the  
quartermaster general, at the request  
of the secretary of war, has made an  
estimate of the extraordinary expendi-  
tures for the movement of troops thus  
far. The total amounts to \$4,573,135.  
Of this \$2,500,000 is for transportation,  
\$1,000,000 for subsistence. In which is  
included the purchase of the supply of  
beef at Vera Cruz from the navy, as  
the army has no refrigerator ship  
there, and \$24,000 for additional or  
foreign pay for officers and men.

It is expected that there will be a  
large sum required for the payment of  
rent for quarters for officers and men  
at Vera Cruz. In the meantime the  
war department has authorized the ex-  
penditure of \$25,000 in Vera Cruz for  
sanitation.

**Two Thousand Actors In "The Miracle."**  
"The Miracle," Karl Vollmoeller's  
wordless mystery pageant, which cre-  
ated a stir throughout Europe, is to  
be presented in Madison Square Gar-  
den, New York, the first part of De-  
cember. Over 2,000 actors will take  
part. The money necessary for the  
undertaking has been pledged by  
wealthy New Yorkers. Costumes, scenery,  
mechanical effects and accessories  
alone represent an outlay of \$100,000.

building credits Great Britain with 72  
Germany with 39, the United States  
with 36, France 29, Japan 19, Russia  
15, Italy 17 and Austria 10.

The relative order of warship ton-  
nage, including all types of vessels, as  
disclosed by the chart is as follows:

Present Order (Tonnage Completed)—  
Great Britain, 2,052,710 tons; Germany  
943,338; United States, 760,002; France  
645,891; Japan, 487,199; Russia, 283,381  
Italy, 259,139; Austria, 198,351.

As Would Be the Case if Vessels Now  
Building Were Completed—Great Brit-  
ain, 2,591,291 tons; Germany, 1,228,298  
United States, 921,844; France, 875,155  
Japan, 702,099; Russia, 685,373; Italy  
452,980; Austria, 258,740.

The following vessels were not in-  
cluded in the tables:

Ships over twenty years old from  
date of launch, unless they have been  
reconstructed and renamed within five  
years; torpedo craft over fifteen years  
old; those not actually begun or or-  
dered, although authorized; transports,  
colliers, repair ships, torpedo depot  
ships or other auxiliaries; vessels of  
less than 1,500 tons, except torpedo  
craft, and torpedo craft of less than  
fifty tons.

**England's Prowess.**

England maintains her ascendancy  
over the two next powers in personnel  
as in ships. She has a total personnel,  
officers and men, navy and marines,  
of 145,533, as against 73,396 for Ger-  
many and 63,859 for France. The  
United States stands fourth in total  
personnel, the figures being 63,413 on  
Dec. 1. Russia is next with 50,425.  
Japan with 49,435, Italy with 37,101  
and Austria with 29,574.

Of warrant officers England has  
2,633, Germany 2,686, United States  
867, France 139, Japan 1,553, Russia  
none, Italy 1,136, and Austria 388.  
In enlisted men England has 115,298,  
Germany 99,929, United States 49,854,  
France 69,565, Japan 43,817, Russia  
47,318, Italy 33,864, and Austria 18,  
712.

In enlisted marines England has 21,  
633, Germany 5,597, and United States  
9,921.

Japan is strong in flag officers, hav-  
ing a total of 67, ranking next to Great  
Britain with 93. Japan boasts of 3  
admirals of the fleet, 8 admirals, 18  
vice admirals and 38 rear admirals.  
The United States has 1 admiral of  
the navy and 25 rear admirals. Ger-  
many has a total of 40 flag officers, in-  
cluding 2 admirals of the fleet; France  
a total of 45 (no admirals), Russia 54,  
Italy 33 (1 admiral), and Austria 14 (1  
admiral).

Russia rates 85 chaplains, ranking  
next to Great Britain with 151. Ger-  
many has 28, the United States 24 and  
Austria 12. Japan evidently believes  
that the sword is mightier than the  
prayer book, for she ranks second in  
officers of flag rank, but has no chap-  
lains. France and Italy also have no  
spiritual pilots.

## TWO TYPES OF SOLDIER.

Striking Dissimilarity Between Amer-  
icans' Garb in 1846 and Now.

If there are any old Mexicans alive  
who witnessed the entrance of General  
Scott's Americans into Vera Cruz in  
1846 they must have imagined, says  
the New York Mail, that they were  
looking at a different race of human  
beings as they watched General Fun-  
ston's soldiers.

Fancy the American militiamen  
marching under Scott. Many of them  
wore the old fashioned shakos, eight  
inches high above the head, made of  
black felt or beaver, with leather tips  
at the top, leather bands all around  
and sometimes a brass crest for a pom-  
pou. Not a detail of their clothing was  
planned for ease, but all for the pa-  
rade. And on their backs they carried  
knapsacks, which only a strong man  
could bear and stand erect.

The soldiers Funston disembarked  
are in soft and pliable khaki of a  
greenish butternut shade, which is  
contrived to make a man disappear  
from view when he is out on the land-  
scape. The collars are low, the gar-  
ment light. Trousers are loose, and  
about the legs are leggings or puttees  
to protect the skin from thorns or  
rocks. The head is covered with a  
light felt hat.

**Watch 379 Years Old Keeps Good Time.**

D. A. Williams of Shelbyville, Ind.,  
has a watch made 379 years ago in  
Dublin, Ireland, which is still keeping  
good time. It was carried at the bat-  
tle of Waterloo by the great-great-  
grandfather of Mr. Williams, who was  
in Lord Wellington's army.

# The VALIANTS of VIRGINIA

(MRS. HALLIE ERMINE RIVES POST WHEELER)  
ILLUSTRATED BY LAUREN STOUT

Copyright 1912 by Doris-Jewell Co.  
SYNOPSIS.

CHAPTER I.—John Vallant, a rich society favorite, suddenly discovers that the Vallant corporation, which his father founded, and which was the principal source of his wealth, has failed.

CHAPTER II.—He voluntarily turns over his private fortune to the receiver for the corporation.

CHAPTER III.—His entire remaining possessions consist of an old motor car, a white bull dog and Damory court, a neglected estate in Virginia.

CHAPTER IV.—He learns that this estate came into the family by royal grant and has been in the possession of the Vallants ever since.

CHAPTER V.—On the way to Damory court he meets Shirley Dandridge, a fox-hunting party which invades his estate. He recognizes Shirley at the head of the party.

CHAPTER VI.—An old negro tells Shirley's fortune and predicts great trouble for her on account of a man.

CHAPTER VII.—Uncle Jefferson, an old negro, takes Vallant to Damory court.

CHAPTER VIII.—Shirley's mother, Mrs. Dandridge, and Major Bristow exchange reminiscences during which it is revealed that the major, Vallant's father, and a man named Sassoon, were rivals for the hand of Mrs. Dandridge in her youth. Sassoon and Vallant fought a duel on her account in which the former was killed.

CHAPTER IX.—Vallant finds Damory court overgrown with weeds and creepers and the buildings in a very much neglected condition. Uncle Jefferson and his wife, Aunt Daphne, are engaged as servants.

CHAPTER X.—Vallant explores his ancestral home. He is surprised by a fox hunting party which invades his estate. He recognizes Shirley at the head of the party.

CHAPTER XI.—He gives sanctuary to the cornered fox. Gossips discuss the advent of the new owner and recall the tragedy in which the elder Vallant took part.

CHAPTER XII.—Vallant decides to rehabilitate Damory court and make the land produce a living for him.

CHAPTER XIII.—He meets Shirley, who has been gathering flowers on the Vallant estate, and reveals his identity to her.

CHAPTER XIV.—Vallant saves Shirley from the bite of a snake which bites him. Knowing the deadliness of the bite, Shirley sucks the poison from the wound and saves his life.

CHAPTER XV.—Shirley tells her mother of the incident and the latter is strangely moved at hearing that a Vallant is again living at Damory court.

CHAPTER XVI.—Vallant learns of the history of his family from Doctor Southall and Major Bristow.

CHAPTER XVII.—He learns of the first time his father, John Vallant, on account of a duel in which Doctor Southall and Major Bristow acted as his father's seconds.

CHAPTER XVIII.—Vallant and Shirley become good friends. Mrs. Dandridge faints when she first meets Vallant.

CHAPTER XIX.—  
Night.  
A quicker breeze was stirring as John Vallant went back along the Road. He had waited in the garden at Rosewood till Shirley, aided by Emma and with Ranston's anxious face hovering in the background, having performed those gentle offices which a woman's fainting spell requires, had come to reassure him and to say good night.

As he threw off his coat in the bedroom he had chosen for his own, he felt the hard corner of the "Lucile" in the pocket, and drawing it out, laid it on the table by the bedside. He seemed to feel again the tingle of her cheek where a curling strand of her coppery hair had sprung against it when her head had bent beside his own to read the marked lines.

When he had undressed he sat an hour in the candle-blaze, a dressing-gown thrown over his shoulders, striving vainly to recreate that evening call, to remember her every word and look and movement. For a breath her face would flush suddenly before him, like a live thing; then it would mysteriously fade and elude him, though he clenched his hands on the arms of his chair in the fierce mental

effort to recall it. Only the intense blue of her eyes, the tawny sweep of her hair—these and the touch of her, the consciousness of her warm and vivid fragrance, remained to wrap all his senses in a mist woven of gold and fire.

Shirley, meanwhile, had sat some time beside her mother's bed, leaning from a white chintz-covered chair, her anxiety only partially allayed by reassurances, now and then stooping to lay her young cheek against the delicate arm in its lace sleeve or to pass her hand lovingly up and down its outline, noting with a recurrent passion of tenderness the transparency of the skin with its violet veining and the shadows beneath the closed eyes. Emma, moving on soft worsted-shod feet about the dim room, at length had

whispered.

you think of it all, anyway?" He reached down, seized a hind leg and whirling him around like a teetotum, sent him flying into the bushes, whence Chum launched again upon him, like a catapult. He caught the white shoulders and held him vise-like. "Just about right, eh? But wait till we get those ramblers!"

"And to think," he continued, whimsically releasing him, "that I might have gone on, one of the little-neck-clam crowd I've always trained with, at the same old pace, till the Vermouth-cocktail-Palm-Beach career got a double Nelson on me and the umpire counted me out. At this moment I wouldn't swap this old house and land, and the sunshine and that 'garden' and 'Unc' Jefferson and Aunt Daph and the chickens and the birds and all the rest of it, for a mile of Millionaires' Row."

He went into the house and to the library. The breeze through the wide-flung bow-window was fluttering the papers on the desk and the map on the wall was flapping sideways. He went to straighten it, and then saw what he had not noticed before—that it covered something that had been let into the plaster. He swung it aside and made an exclamation.

He was looking at a square, uncompromising wall-safe, with a round figured disk of white metal on its face. He knelt before it and tried its knob. After a moment it turned easily. But

## The KITCHEN CUPBOARD

FRESH VEGETABLES.  
NOW that fresh vegetables are coming into the market the housewife is able to vary her bill of fare indefinitely.

Wholesome Foods.  
Sauté Potatoes.—Take one pound of new potatoes, two ounces of butter and some chopped parsley. Boil the potatoes until they are nearly cooked. Drain and cut into slices or other shapes. Heat the butter and fry the potatoes until nicely browned. Dish in a hot tureen and sprinkle sparingly with chopped parsley.

Artichoke and Beans.—Take one pound of artichokes, one-half pound of butter beans, one-quarter pint of milk, one ounce of butter and chopped parsley. Soak the beans overnight. Boil them in plenty of water until tender, about three-quarters of an hour. Boil the artichokes and mash them thoroughly, add the milk and butter and then boiled beans. Dish and sprinkle with parsley.

Cat of Ancient Mexico.  
The Mexican himself firmly believes in the nine stages of heaven and hell, and the curious cat of the Aztecs began existence with its full quota of nine lives. This feline of ancient Mexico today almost extinct, was a peculiar, even repulsive creature, being absolutely naked, save for the few sparse hairs which appeared along the ridge of its tail and back at the beginning of winter.

See Life in Right Light.  
Hold your dull life up to the light, and see how it will be transmuted. Life is not meant to be a path of ease, but steep and rugged; and it is only through self-denial, discouragement, discipline and trial that you may attain the higher life—Light on the Hidden Way.

Anna Thompson.

Another of our economical fads this season is the waist-coat vest or overblouse. If the skirt and blouse are plain the vest may be of broad, introducing in this way a smart touch of color. As illustrated in 8040-8036 a smart hard finish serge in dull blue fashions the vest and three tiered skirt, being charmingly relieved by a figured sash and an underblouse of flowered net.

The blouse (8040) may be made in any size with 14 yards of 30 inch material for the vest, 24 yards of 36 inch contrasting material for the gumpie and 3/4 yard of silk for the girle.

No. 8040—sleeves 34 to 42.  
No. 8040—sleeves 32 to 42.  
No. 8036—sleeves 14, 16, 17 and 18.

Almond Pudding.  
Blanch four ounces of sweet almonds and three of bitter almonds, dry them and pound very fine. Add four ounces of powdered sugar, three tablespoonfuls of rosewater, yolks of four eggs and the beaten whites of three. Whip for ten minutes, pour into a buttered mold and bake in quick oven. Turn out and serve hot or cold with cream or sauce.

Fried Salt Pork.  
Cut the slices thin and fry slowly, turning both sides. When done until crisp enough to break at touch lift to a dry hot platter. Make a smooth milk gravy with part of the fat and dip slices of dry bread in it. Piling on a platter. Serve with baked potatoes, egg salad, apple sauce and coffee.

To Keep a Dress Clean.  
For use on rainy days get a piece of wide elastic long enough to go around the dress just below the hips. Sew a hook and eye on the ends and you can draw your dress skirt evenly and neatly around you, out of the way of mud.

Bashful Papa.  
"A man is never successful until he is able to borrow money. If he can borrow it and escape paying it back, he is more than successful. Father has been very successful; he is also very bashful. Why, he's so bashful when he borrows money he can't get up enough nerve to ask a man to take it back."—Exchange.

Gratitude.  
"I saw your friend Brown yesterday." "Brown's no friend of mine." "What's that? Why, he told me you borrowed money from him!" "Yes, and what did I do with it? Spent it in folly. I tell you, Brown's no friend of mine."

SAGE TEA KEEPS  
YOUR HAIR DARK  
When Mixed with Sulphur It  
Brings Back Its Lustre  
and Abundance.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.  
Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Gettysburg Druggist  
Deserves Praise  
H. C. Landau, druggist, deserves praise from Gettysburg people for introducing here the simple buckthorn bark and glycerine mixture, known as Adler's-Ika. This simple German remedy first became famous by curing appendicitis and it has now been discovered that JUST A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY. It's quick action is a big surprise to people.

Tried the Numbers Carefully. First Right, Then Left: 17—28—94—0. The Heavy Door Opened.

the resolute steel door would not open, though he tried every combination that came into his mind. "No use," he said disgustedly. "One must have the right numbers."

Then he lifted his fretted frame and smote his grimy hands together. "Confound it!" he said with a short laugh. "Here I am, a bankrupt, with all this outfit—clear to the very finger-bowls—handed to me on a silver tray, and I'm mad as a cat because I can't open the first locked thing I find!"

He ran upstairs and donned a rough corduroy jacket and high leather leggings. "We're going to climb the hill today, Chum," he announced, "and no more moccasins need apply."

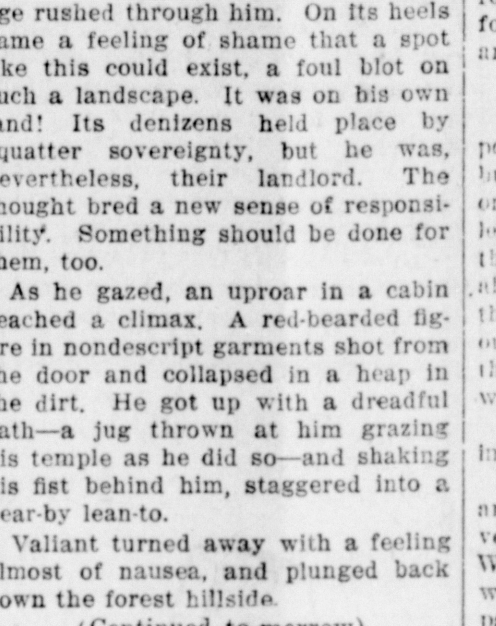

In the lower hall, however, he suddenly stopped stock-still. "The slip of paper that was in the china dog!" he exclaimed. "What a chump I am not to have thought of it!" He found it in its pigeonhole and, kneeling down before the safe, tried the numbers carefully, first right, then left: 17—28—94—0. The heavy door opened.

"I was right!" he exulted. "It's the plate." He drew it out, piece by piece. Each was bagged in dark-red Canton flannel. He broke the tape of one bag and exposed a great silver pitcher, tarnished purple-blue like a raven's wing—then a tea-service. Each piece, large and small, was marked with the greyhound rampant and the motto. "And to think," he said, "that my great-grandfather buried you with his own hands under the stables when Tarleton's raiders swept the valley before the surrender at Yorktown! Only wait till Aunt Daphne gets you polished up, and on the sideboard! You're the one thing the place has needed!"

With the dog for comrade he traversed the garden and plunged across the valley below, humming as he went. The place was pathless and overgrown with paw-paw bushes and sassafras. Great trees stood so thickly in places as to make a twilight and the sunnier spots were masses of pink laurel, poison-ivy, flaming purple rhododendron and wine-red tendrils of interlarded briars. This was the forest land of whose possibilities he had thought. In the heart of the woods he came upon a great limb that had been wrenched off by storm. The broken wood was of a deep rich brown, shading to black. He broke off his song, snapped a twig and smelled it. Its sharp acrid odor was unmistakable. He suddenly remembered the walnut tree at Rosewood and what Shirley had said: "I know a girl who had two in her yard, and she went to Europe on them."

He looked about him; as far as he could see the trees reared, hardy and perfect, untouched for a generation. He selected one of medium size and pulling a creeper, measured its circumference and gaging this measure with his eye, made a pencilled calculation on the back of an envelope. "Great Scott!" he said jubilantly to the dog; "that would cut enough to waistscot the Damory Court library and build twenty sideboards!"

He sat down on a mossed boulder, breathless, his eyes sparkling. He had thought himself almost a beggar, and here in his hand was a small fortune! "Talk about engagement rings!" he muttered. "Why, a dozen of these ought to buy a whole lot!"

## U. S. ORDERS SEARCH FOR SILLIMAN

### Officials Aroused Over Mexico's Indifferent Action.

Washington, May 21.—The anxiety among officials over the inability to get definite word from American Vice Consul John R. Silliman, who was reported released from prison at Saltillo more than a week ago, aroused the state department to renewed activity in the missing American's behalf.

Secretary of State Bryan telegraphed to American Consul Hanna at Monterey asking if it would be feasible to send a messenger to Saltillo to determine if Silliman ever had been released.

Secretary Bryan's directions to Consul Hanna made it plain that he was to use his discretion in prosecuting his inquiries, as officials in Washington realized that there were many difficulties to be overcome in sending a representative of the Monterey consulate into the Saltillo district, where the Constitutionalists and Federalists are in a death struggle for supremacy.

So persistent has been the silence for the last few days of the Mexican foreign office with regard to the American requests for actual information regarding Silliman, that anxiety in many minds has turned to apprehension that Silliman, despite previous assurances of his safety from Mexican agents, may again have been held in custody. Some officials fear that he may have been killed.

### HARD BLOW TO BECKER

Court Refuses to Admit Dying Confession of Gunman.

New York, May 21.—The confession that "Dago Frank" Cirofici made an hour before he went to the electric chair at Sing Sing will not help Charles Becker in his fight to prove his innocence of the murder of Herman Rosenthal, for which Cirofici and his three companions already have paid the penalty.

The supreme court, before which Becker is on trial for the second time, refused to admit testimony dealing with this confession.

"Dago Frank" before he died swore he had never heard the name of Becker mentioned until Rosenthal had been killed. The defense had planned to place upon the stand the sister of the dead gunman, the priest who accompanied him to the chair, the warden and the principal keeper at Sing Sing, to testify to the authenticity of this confession, but Justice Seabury's ruling defeated their intentions.

Becker's face fell when he heard the ruling. The court held that evidence pertaining to the confession was not admissible because it was an incident that occurred after the murder.

### Captain Winslow Killed.

Jackson, Miss., May 21.—Captain Richard Winslow, of the Coast Artillery Corps, at Brownsville, Tex., was accidentally killed, according to information received by his family here. No details were given. He was thirty-six years old.

### TO CONFER WITH LEADERS

Colonel Roosevelt Criticizes Wilson's Attitude in Controversy With Colombia Over Panama Canal.

Oyster Bay, N. Y., May 21.—Colonel Theodore Roosevelt, who has returned from South America, where, during his seven months' absence, he had led an exploring expedition into the Brazilian jungle, criticized the Wilson administration's attitude in the controversy with Colombia over the Panama canal and expressed himself strongly as opposed to the repeal of the law for the exemption of American coastwise ships from the payment of tolls.

"In agreeing to the payment of \$25,000,000 to Colombia," declared the colonel, "it is just as though some future president of the United States should apologize to a successor of Huerta for the seizure of Vera Cruz." At this point the colonel threw up his hands and exclaimed: "Well, that is unthinkable."

As to the tolls repeal measure now pending in congress, the former president said he thought it would be perfectly right to arbitrate the question. If the rights of the United States to grant exemption were questioned, but declared that to yield the point unequivocally without arbitration was indefensible as he is convinced that the country is within its right in freeing coastwise shipping from the payment of tolls.

Mr. Roosevelt said that when he goes to Washington on Tuesday to deliver his first lecture on his recent explorations before the National Geographical society he will be ready to refute statements made by Henry Savage Landor, the British explorer, and others who expressed doubt as to the correctness of his statement that he had discovered a great and heretofore unmapped river in the wilds of South America.

"The river is still there," said the colonel with a laugh. "It wasn't like climbing an unexplored mountain or going to the North Pole, for such expeditions leave no traces which are there a year later. But nobody is going to roll up that river and carry it off. Anybody can go down there and see it for himself. I will give him the address of the owner of a rubber plantation who will furnish river men for the trip. The lower third of the river is easily navigable, and anyone who doubts the existence of that river may go down and see for himself."

Mr. Roosevelt, it was learned, looks forward to one of the hardest political campaigns of his career. Except for the time occupied by his trip to Spain for the wedding of his son, Kermit, he expects to devote to politics most of his time until November. Already a tentative plan of action has been mapped out. Colonel Roosevelt has in mind one of the longest campaign trips he ever has made, taking him from the Atlantic to the Pacific, and several shorter trips into nearby states.

Colonel Roosevelt already has made appointments with P. rogressive leaders of several states. One of the most important of these conferences will deal with the situation in Pennsylvania, where Colonel Roosevelt expects to make a hard campaign this fall. Within the next few days the colonel will see William Draper Lewis, dean of the University of Pennsylvania, who was nominated for governor at Tuesday's primaries, and Gifford Pinchot, the candidate for United States senator. E. A. Van Valkenburg, of Philadelphia, and William Flinn, of Pittsburgh, both of whom were prominent in Colonel Roosevelt's 1912 campaign, also will attend this conference.

### TARIFF LOSS \$63,000,000

Senator Smoot Gives Figures For April Due to New Law.

Washington, May 21.—Armed with tables of figures, Senator Smoot, of Utah, told the senate that the total loss to the commerce of the country in the month of April as a result of the passage of the Underwood tariff law had been \$63,000,000.

He based this, he said, on reports as to increased importation and decreased exportation. He said this was at the rate of \$766,000,000 loss a year.

Let those who would affect singularity with success first determine to be very virtuous, and they will be sure to be very singular.—Walter Colton.

## NEWS OF THE SPORT WORLD

Jack Barry, Athletics' Short Fielder, May Have to Quit.

Jack Barry, famous shortstop of the Athletics and a cog in the \$100,000 infield, may be forced to give up baseball this season. Barry's legs have gone back on him and in bad weather the peppery little player is almost crippled.

Connie Mack has two good substitutes in Kopf and Orr, so Jack will not be missed as much as it would seem.

### Athletics Poor Attraction.

Despite the fact that Connie Mack's team is one of the greatest combinations that have ever been developed in baseball, the Athletics are not a good attraction either at home or on the road. There is something about the demeanor of the champions on the ball field that the public does not take kindly to. The team has wonderful ability, but is a listless aggregation and lacks a single attraction, though it numbers among its members many stars of the game.

Philadelphia fans do not know the Mack players, who seem to have but few acquaintances. Baseball is a business with them. They go to the ball park like a lot of laborers, and when their work is finished they hustle home. Of course that is an ideal system so far as condition is concerned, but the public does not see or hear enough about the players to take a real interest in them.

### Marty O'Toole Is Due.

After several years of rather mediocre work it is predicted that Marty O'Toole, the \$22,500 beauty, will come through this year and pitch the kind of ball that was expected of him. O'Toole gives indications of being in good form this spring, but he is being handled carefully, for Manager Clarke has been convinced that he is not suited for cold weather.

With O'Toole in form the Pirates should have a fine pennant chance this year. The team not only has a great start, but it is improving with every game, and, barring accidents, it should continue to hold a lead to the finish of the race. The New York Giants are not near as formidable this year as they were last. McGraw's pitchers are not showing the form they did heretofore and a weak pitching staff is the worst handicap a team can possibly have.

### Naps Look Good.

Though the Cleveland Naps are bringing up the rear of the American league race, that team stands as good a chance to finish in the first division as does any of the other western teams. The only difference that there is in the team this year compared with last is that Falkenberg is not with it, and Falkenberg was the Naps' leading pitcher in the last campaign. But Birmingham appears to be getting better results from some of his other twirlers, and when the general strength of the team is considered it is hard to figure it down in the second division.

### Dodgers a Big Surprise.

The showing made by the Brooklyn club thus far has been one of the surprises of the National league race. Wilbert Robinson is displaying a lot of ability as a manager, and he has a team which is pretty sure to be prominent in the present campaign. Incidentally, weather conditions were not favorable all spring for the team's training, and yet it seems to have reached a stage which cannot be improved upon by any of its rivals.

## HOG WISDOM.

Fortunately corn contains some protein, as otherwise swine fed wholly on corn would die, due to lack of this life giving element in their ration.

Always feed the swine in such a way that each animal gets his or her share of the feed.

Feed your hogs at regular intervals. The pig's stomach is a good alarm clock to go by.

The market hog attains his full growth when about six months old.

If the right kind of feed is used it is impossible to crowd the pigs too fast.

Plenty of pasture keeps the hogs healthy.

When the pigs begin to eat they become almost self supporting and are demanding less and less of the sow.

## FEEDING DAIRY STOCK.

Young Animals Should Be Well Fed During Growing Period.

Calves dropped in the spring and early summer should be growing nicely by the time they are in their winter quarters. They should be early accustomed to eating grain, grass and, later in the fall, alfalfa or clover hay. It is poor economy to limit their supply of roughage, as it develops large frame barrels and gives the appearance of vigor, and nothing will add this more than clean, well grown hay.

The grain ration is necessary for steady growth. The grain should be given in two feeds, morning and evening.

Regulate the amount of grain to the individual calf. No grain should be allowed to remain in the mangers where it will become musty, as digestion disorders will result. Ground oats and bran are valuable supplements to skim milk in a ration as they contain a large amount of mineral substitute necessary for good bone.

## FUR BEARING SHEEP.

Kansas Agricultural College Experimenting With Karakul Crosses.

A test which has for its aim the introduction of a new fur farming industry in the United States is showing some unusually promising results in Kansas. Several hundred Persian lamb, astrakhan and krimmer fur pelts have been produced on a sheep ranch in that state by crossing Karakul sheep from Asia on American long wool breeds. The undertaking, which is co-operative between the Kansas Agricultural college and L. M. Crawford, a sheep breeder near Cottonwood Falls, has been so successful that the college has decided to send its expert in charge of the test, Dr. R. K. Nabours, to Bokhara, central Asia, to study fur farming and the Karakul sheep in its home country. It is from Bokhara that the United States imports \$14,000,000 worth of these furs annually. Dr. Nabours will spend months gathering information that will be helpful in developing the project on the Kansas fur farm.

More than 500 of the valuable fur pelts were produced on the Kansas farm this spring. Three hundred were grown last season, of which 100 were marketed in New York at from \$3 to \$10 apiece. This season's results show that pelts almost as valuable as those

Kansas Agricultural college has been experimenting with a view to producing astrakhan fur by crossing the Asiatic Karakul sheep with American long wools. These pelts are worth, when taken from lambs only a few days old, from \$3 to \$10 each. Lambs born dead bear fur just as valuable. The Karakul ram here illustrated is a pure bred owned by L. M. Crawford.

obtained by crossing pure bred Karakuls on Lincoln and Cotswold ewes may be secured by breeding half blood Karakul-Lincoln rams to the Lincoln and Cotswold ewes. Crawford is the only sheep breeder in the United States attempting the production of these furs on a large scale. He has the larger part of the only herd of Karakuls ever brought to the United States.

The importance of the Kansas college's work in behalf of fur farming may be realized from the fact that if widely distributed throughout the sheep growing sections of America the Karakul sheep not only will make possible a fur industry of great economic promise and effect a saving of the pelts of thousands of lambs which die every year, but also will be in the injecting of a better mutton blood into American sheep. Karakul sheep are large and very hardy and when crossed on native breeds seem absolutely to breed out the woolly or musklike flavor of the meat.

## Early Spring Grass.

In turning cattle to grass remember that the first two or three weeks' grass is very poor stuff and will sometimes knock off more flesh than it puts on. Better feed a little longer in the yards rather than to depend on washy grass.

## Her Investigation

By MARTHA V. MONROE

John Ackerman had proposed to Helen Markley and was accepted on condition. She resolved before their engagement was published to the world—indeed, before it was suspected—to inquire about him.

She had the frankness to tell him what she was going to do. He said that he would be willing to have her take that and any other precaution she thought proper and was quite willing to wait for his answer until she had satisfied herself in the matter.

One thing Ackerman insisted on which his fiancée balked at. He wished to hear the reports she got of him and who made them. Miss Markley didn't think this would be honorable in her. Ackerman replied that there could surely be no harm in her telling him who had spoken well of him, and it was his right to know who had spoken ill of him. She yielded the point and agreed to tell him all.

The next three months were rather a trying time between the lovers. When Miss Markley heard her lover well spoken of she was very gracious to him. When some one spoke ill of him she could not conceal the effect it had on her. When two of the three months had elapsed she wrote him a note breaking the engagement between them. He called on her and she refused to receive him.

He wrote her a note stating that he supposed some one had spoken ill of him and reminded her of the agreement that he should hear the good and the bad. She replied that she had decided against him on the testimony of one whose word was unimpeachable and nothing he could say would serve to eradicate the impression that had been made upon her.

It now seemed to Mr. Ackerman that it was time to depart from the defensive and take up the offensive. He had well understood from the beginning that if his fiancée could get persons to talk about him as they really felt there were plenty who would speak ill of him. The shortest way to neutralize what these persons said was to have a few words spoken by supposed friends of Miss Markley when the time came to use them. He therefore made inquiries about her on the same lines she inquired about him. Since he could not get a word with her he fired a preliminary shot.

He wrote her of his investigations which he said he did not in the least value, but he had kept a written list of them that he would be pleased to compare with what she had gathered about him. This put a different face on the matter. Miss Markley was not only curious to know what people had said about her, but she did not wish the man she had discarded to be prejudiced against her. She consented to a meeting.

Ackerman called with a little memorandum book in his pocket. Miss Markley received him coldly and asked him to produce his notes.

"First," he said, "is what was told me by Miss A. when I asked her what kind of a person you were."

"She hates me."

"Nevertheless she spoke highly of you. 'Miss Markley,' she said, 'is a lovely girl.'"

"The serpent."

"Now," said Ackerman, "I have given you one criticism of yourself. I would like to hear one criticism, the one that decided you to drop me. Perhaps I may be content with his name alone."

"Paul Gunter."

"That is quite sufficient. I hold Mr. Gunter's note for \$500. He gave it to me in lieu of being criminally prosecuted by me for a proceeding which to say the least, was irregular."

Ackerman, who spoke these words with a change of manner, arose to go.

"Have you the note?" asked Miss Markley.

"I have, but it is under lock and key. You are the only person except Mr. Gunter and I who knows that I possess it."

"Where are you going?"

"There is no necessity of going any further in this matter. Thus far there has been no betrayal of confidence, at least by me. I have proved that your plan of getting opinions about the man you would marry is a failure."

"What is a girl to do?" moaned Helen.

"When she consents to link her life with a man she takes a step in the dark."

Ackerman had gone to the door and placed his hand upon the knob. He turned and walked back to her.

"It is that step in the dark that sends me to forgive you for what you have done. Marriage, you know, has been truly called a lottery, a lottery for the man as well as the woman. But we must take it or fail to fulfill our natural destiny. Every woman before marriage should, so far as possible, learn what she can about the man she expects to marry, but she can only learn through others of his general standing in the community. What he is in his inner self she cannot learn from others. Polite persons will speak well even of an enemy; prejudiced persons will find it difficult not to malign those against whom they are prejudiced."

The next day the engagement between Mr. Ackerman and Miss Markley was announced. Every one who congratulated either of them spoke well of the other.

## Medical Advertising Only One "Best"

Gettysburg People Give Credit Where Credit is Due.

People of Gettysburg who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Gettysburg people. Here's a case:

Mrs. M. A. Gilbert, 128 W. Middle St., Gettysburg, Pa., says: "I have had no need for Doan's Kidney Pills since I used and publicly recommended them some years ago. They are the best kidney remedy to use. My health was all run down, owing to disordered kidneys. I didn't have much of an appetite and couldn't sleep well. My back and head ached and I had dizzy spells and chills. Whenever I caught cold, I felt worse. One of my relatives advised me to try Doan's Kidney Pills and I got some at the People's Drug Store. It didn't take this remedy long to remove the trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
